

RAUL RODRIGUES

AI Automation Developer

Dublin, Ireland | raulbilu1982@gmail.com | linkedin.com/in/raul-rodrigues-6744043b1 | raulrodriguexz.github.io

PERSONAL PROFILE

Automation developer specialising in AI-powered workflows that remove repetitive manual work for businesses. Since 2025 I have delivered automation and B2B web solutions for companies across marketing, legal, transport and dental sectors, building lasting client relationships through reliable, high-quality delivery. Now relocating to Dublin to study and grow within Ireland's tech ecosystem. Currently improving my English while continuing to build automation projects.

TECHNICAL SKILLS

Automation & AI: AI-driven workflow automation, LLM APIs, n8n / Make, prompt design

Web / B2B: B2B websites, geolocation features, integrations & APIs

Programming: Python, JavaScript, SQL, REST APIs

Tools: Git & GitHub, Google Workspace, automation platforms

EXPERIENCE

AI Automation Developer — Freelance 2025 – Present

Self-employed, São Bernardo do Campo, Brazil

- Design and deliver AI-powered automations for businesses across marketing, legal, transport and dental sectors, streamlining repetitive processes.
- Build B2B websites with geolocation features and third-party integrations to support client lead generation.
- Earned repeat business and long-term client trust through consistent, reliable delivery — several engagements ongoing.

PROJECTS

B2B Websites with Geolocation Client work

- Developed B2B websites featuring geolocation to help businesses reach and route customers by location.

AI Automation for SMBs Client work

- Automated recurring business workflows using AI, reducing manual effort across several industries.
